

# Notice

## Registration of cars

According to the 2018 Florida Statutes - 320.06 Registration certificates, license plates and validation stickers generally.

In the state of Florida, your registration license plates are issued new ones every 10 years. It is your responsibility to keep the board informed of any changes you may have regarding your vehicle registration, new plate, new car and color.

There are a number of the restarted vehicles on the Bermuda Park property that do not match the information regarding the vehicle information. If you are one that has purchased a new car or have a new plate you must re-register your vehicle.

You can go online and register your vehicle so all your information is correct.

Please make sure your car registrations are keep up to date.

Thank you

Bermuda Park Board of Directors
