Hurricane

I had a meeting with Anvance roofers today and they are going to start the repairs of the roofs and soffit from the hurricane damage. They will be starting on **1/30/2018**. Hopefully when that work is done we can start on the inside of the buildings.

Trash and Recyclables

Please make sure all your trash is placed in the dumpster. Do not let anything outside the dumpster the drivers will not pick it up. And anything you put in the dumpster must be in a bag.

We are having an issue with the recyclables and we are looking for your cooperation. The only things that are recyclable are bottles, metal cans, cardboard, paper and **plastic containers**.

Do not place plastic bags in the recyclable container and that includes groceries bags.

Do not place household trash in the recyclable container.

Do not place cigarette butts in the recyclable container.

Do not place dog feces in the recyclable container.
